# Notes for the teacher

## The course

*Get Ready!* is a two-level course which aims to give pupils a feel for English and to establish a sound basis for later learning. Numbers Book 1 is designed to develop the basic number concepts introduced in Pupil's Book 1 and Activity Book 1.

Each level of *Get Ready!* is divided into sixty steps. Each step consists of one page in the Pupil's Book, half a page in the Handwriting Book, one page in the Activity Book and half a page in the Numbers Book. The sequence for a complete step is therefore as follows:

The Numbers Book should only be used when the equivalent steps in the other books have been covered.

## Numbers work

Numbers Book 1 teaches basic number concepts, including number sets and simple arithmetic. It teaches the writing of the numbers 1–10 and it is the basis for teaching the English needed to deal with this area of language. Full instructions for using Numbers Book 1 are given in *Get Ready!* Teacher's Book 1.

## Numbers syllabus

Numbers Book 1 recognizes that for many young learners the abstraction of numbers is hard to understand. It begins therefore with basic concepts. The syllabus is as follows:

Steps 1–8 number sets 1–3

Steps 9–14 number sets 4–6

Steps 15–27 revision of number sets and writing 1–6

Steps 28–32 the concept of the equation (= / equals)

Steps 33–39 the concept of addition (+ / plus)

Steps 40–46 sums (up to a total of 6)

Steps 47–56 number sets and writing 7–10

Steps 57–60 sums (up to a total of 10)

There is built-in revision.
